Emergency First Aid Course

Health and safety understanding for all employees

Qualification information

Overview

Wessex Safety Services emergency First aid course is ideal for anyone who needs a workplace appointed Person First Aid qualification or anyone who simply requires some First Aid training. Whilst the Health and Safety Executive do not accredit Emergency First Aid courses, this course meets all of the criteria laid down for meeting your statutory requirements for an 'Appointed Person'.

This course is ideal for small/medium low risk businesses that employ 50 people or less.

Outline programme

The course has the following training objectives:

- Be able to act safely, promptly and effectively with emergencies at work;
- Types of first aid equipment, including the contents of a first aid box;
- Understand the duties of employers and the legal framework;
- Maintain simple factual records on what they have done with regard to any treatment or management of an emergency;
- Recognise the importance of personal hygiene in first aid procedures.

Deal with a casualty who :

- Requires cardiopulmonary resuscitation (CPR)
- Is unconscious;
- Is bleeding or wounded;
- Is suffering from shock;

Designed for:	Small/Medium low risk Businesses
Course duration:	6 ½ hours
